

♥ Love begins with me! ♥

A quick wave, a high five, or even a nice smile.

Love begins with me!

Talk to someone new at school for a short while.

Love begins with me!

Sometime when you're all alone or feeling kind of down.

A friend will always be there to turn it around.

So when you're in a pickle and feel like no one's left to see.

Always know that I'll be there because

♥ Love begins with me! ♥
