

Who Am I?

I am the force that lifts the burden
I am the thing that lifts the load
and I'll be with you always
on your long and winding road

I am the one who brings you laughter
I am the one who dries a tear
I am the one who is the rudder
the one who knows what course to steer

I am the medicine to pick you up
when you are feeling down

I am the answer to what you've lost
and where it can be found

Who Am I ?

I am the love you have given
and get back in return
