

Celebrating Humanity/Love Begins With Me

Hilary Canto UK - GLD 2023

*Love is kind and often blind.
Hides in mystery and showers great display.
A child's smile and eyes light the whole world with love.
Shining on those who see and who do not.
For love is not a thing to hold
Moving and weaving bonds richer than gold.
Deeper than the darkest ocean
Higher than the tallest mountain
Bonding the seen and the unseen
Through gestures, actions, thoughts, and words
Love nurtures young, old, and sick
Radiates beauty with strength and courage.
Tender, yet certain and fearless
Love respects all, love is within all.
Tending the earth, illuminating the universe
Communicating through every breath, every sigh, every sound,
the fire, and the light in our dance with life.
Whilst our tech filled world voiding love increases
Loves boundless joy and purity never ceases.
Constant protection and timeless connection
Hearts everywhere streaming our interdependence.
From all hearts of love to the heart of the universe,
Humanity interconnected in total beingness.
No bodies of limits, no pain or misunderstanding
Just pure relationship in loves union everlasting.*
